

R-105+C-105W RGB CCT LED MESH+WIFI Controller Set

CE RoHS

TUYA APP

R-105

MESH+WIFI

C-105W

Compatible voice assistants (Support language command switch and brightness adjustment.)

小米小爱

小智管家

天猫精灵

百度小度

Amazon Alexa

Yandex Alice

Google Assistant

Local Remote Control:

MESH remote control realizes local physical key control (such as switching, group switching, basic dimming) through MESH, which is suitable for the elderly, children or quick operation.

MESH WIFI controller supports remote APP control through the Wi-Fi Tuya ecosystem, which can finely adjust brightness, color, and dynamic effects, and can share devices, create groups and other functions.

Pecularity

- MESH wireless transmission technology, stable signal and strong penetration.
- Support matching multiple devices, multiple devices can be controlled at the same time, and one remote control can manage and synchronize up to 500 controllers. Each controller can be supported by 10 remote controls. (Control distance 30 meters)
- The brightness and color of the remote control can be adjusted according to personal preference, and the brightness and speed of the dynamic mode can be edited.
- The controller can adjust the brightness, color, voice control, select various dynamic or custom scenario modes, timing, countdown and other functions through the Tuya/Smart Life APP.
- Device click to run and automate, automatic transfer and synchronization function.
- PWM (Pulse Width Modulation) technology is adopted to ensure smooth light transition and avoid eye fatigue.
- Voice control, support Asia Alexa, Google Assistant, Tmall Genie, Xiaomi Xiaoai voice assistant and other speakers.
- Support multi-controller cascade, easily cover large-area lighting scenes such as shopping malls, theaters, building facades, etc.

Device parameters

LED controllers		LED remote control	
Input voltage	DC 5-24V	Voltage	3V(AAA*2PCS)
Input current	6/CH; 15A max	Operating current	10mW
Access signal	MESH+WIFI	Transmission frequency	MESH (2.4GHz)
Control the distance	30M	Standby power consumption	15uA
Size	L75XW36XH17mm	Transmit power	6dBm
Authentication	CE,ROHS	Color temperature range	3000-6000K
Environment		Remote control distance	30M
Operating temperature	Ta:-20°C~+60°C	Size	L122XW53XH21mm
Maximum temperature of the case	Tc:+65°C	Operating temperature	Ta:-20°C~+60°C
IP rating	IP20	Authentication	CE,ROHS
Wrap		Wrap	
Package size	L7.6XW3.7XH2.1cm/0.04kg	Package size	L13XW5.8XH2.7cm/0.105kg
Box size (100 pcs)	L19XW16XH12cm/4.2kg	Box size (100 pcs)	L27XW30XH15cm/11kg

Wiring diagram of the device

Connect the strip light
AC100-240V

Description of the function of the remote control

R-105Remote Control Mode Comparison Table

Dynamic Mode Comparison Table

S/N	MODE	S/N	MODE	S/N	MODE
1	Red breath	2	Green Breath	3	Blue Breath
4	Tricolor w changes slowly	5	Green breathing	6	Purple breath

S/N	MODE	S/N	MODE	S/N	MODE
7	White light breathing	8	Red and green breathing	9	Red and blue breathing
10	Tricolor w changes slowly	11	Colorful flashes	12	Flashing red
13	Flashing green	14	Flashing blue	15	Yellow flashing
16	Cyan flashes	17	Purple flashes	18	White light flashes
19	Red and green flashing	20	Red and blue flashing	21	Green and blue flashing
22	Yellow breathing	23	Green and blue breathing	24	Blue breath
25	Blue W breathes	26	Green W breathe	27	Yellow W breathing
28	Colorful flashes	29	Red flash	30	Green flash
31	Blue flashes	32	Yellow flash	33	Cyan Flash
34	Purple flash	35	White light flashed	36	Tricolor flashing
37	Three-color gradient	38	Three-color jump	39	Colorful jumps
40	Colorful gradients				

Note: Except for mode 4, the brightness speed is not adjustable, and the speed of mode 10 is adjustable, and the other modes are brightness adjustable and speed adjustable.

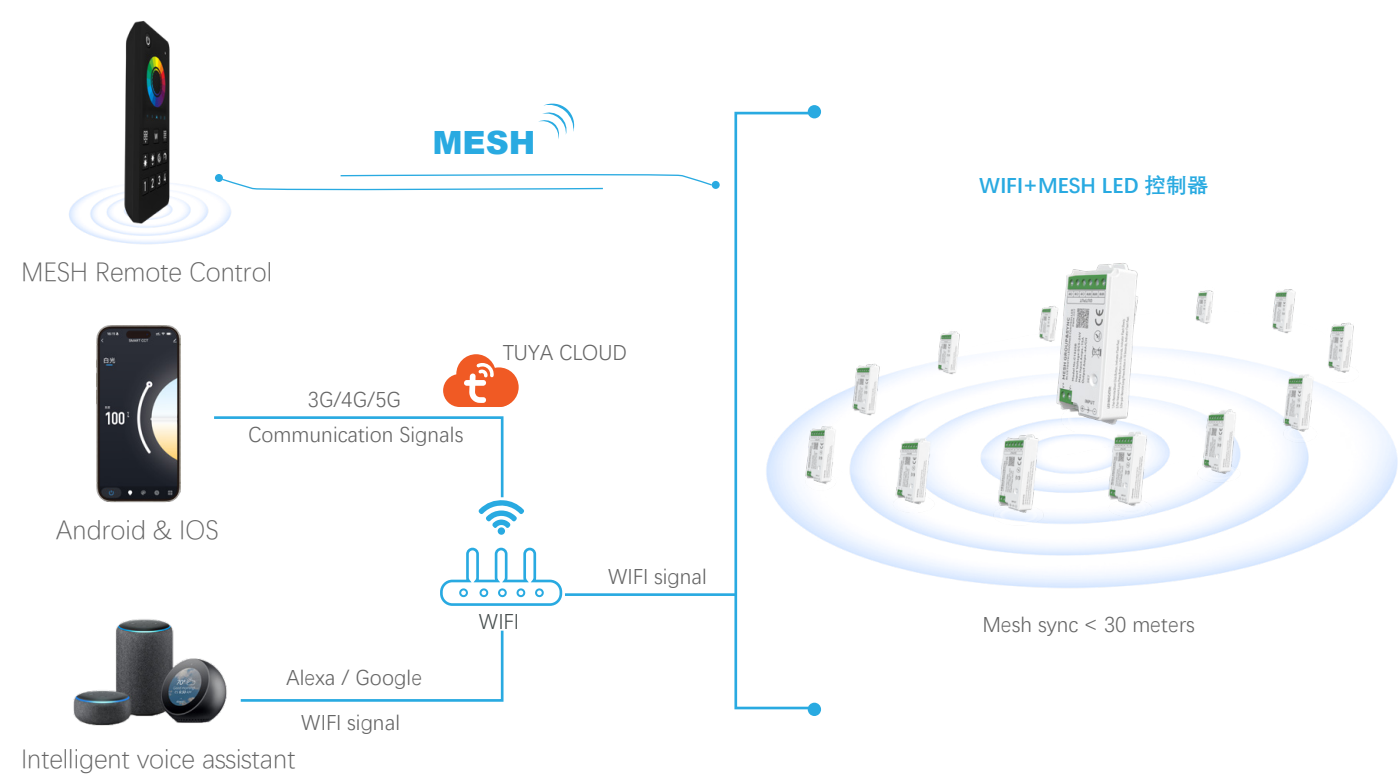

Music Mode Comparison Table

S/N	MODE	S/N	MODE	S/N	MODE
1	The seven colors follow the music gradient	2	The seven colors dance to the music	3	Seven colors flicker along with the music
4	The seven colors breathe to the music				

Note: The brightness and speed are not adjustable in music mode

Schematic diagram of the control connection

Mesh wireless transmission

1. Download and install the [Smart Life] or [Tuya Smart] APP

Search for [Tuya Smart] on Apple or Google Play or scan the QR code below to download and install the app.
Please click on the "Sign Up" button to create an account and use it for the first time, if you already have an account, log in directly.

Please download the corresponding Tuya/Smart Life APP according to your region.

Scan the QR code to download the APP

Tuya Smart APP

2. Product function description > reset the device

function		Button mode	Power-off mode
 'SET'key	ON/OFF	Short press (release within 1s)	N/A
 MESH Remote Control	The remote control is paired	Press (3S) The indicator light flashes quickly	3 Times
 Android & IOS	WiFi Connect	Press (5S) The indicator light flashes quickly	5 Times
	Clean up and reset	Press and hold (10S) to The controller indicator flashes quickly	10 Times

3. Connect to your smartphone

1. Make sure your smartphone is working under a WLAN network.
2. Open the login APP, press and hold "SET" to add a device, if you don't find it, tap " + " in the upper right corner, and then manually select "Add Device", when adding, you need to enter Smart Connect your phone to the WiFi password and wait 5-10 seconds for the connection to complete after successfully entering
3. Once the connection is successful, the new device will be displayed on the home page, then tap on the device and enter the control interface to do more

Follow these steps to complete the connection:

+

Add a device

+

Create a scene

+

Add a shortcut card

+

Sweep it

×

Add a device

1 device being added

SMART RGBCCT

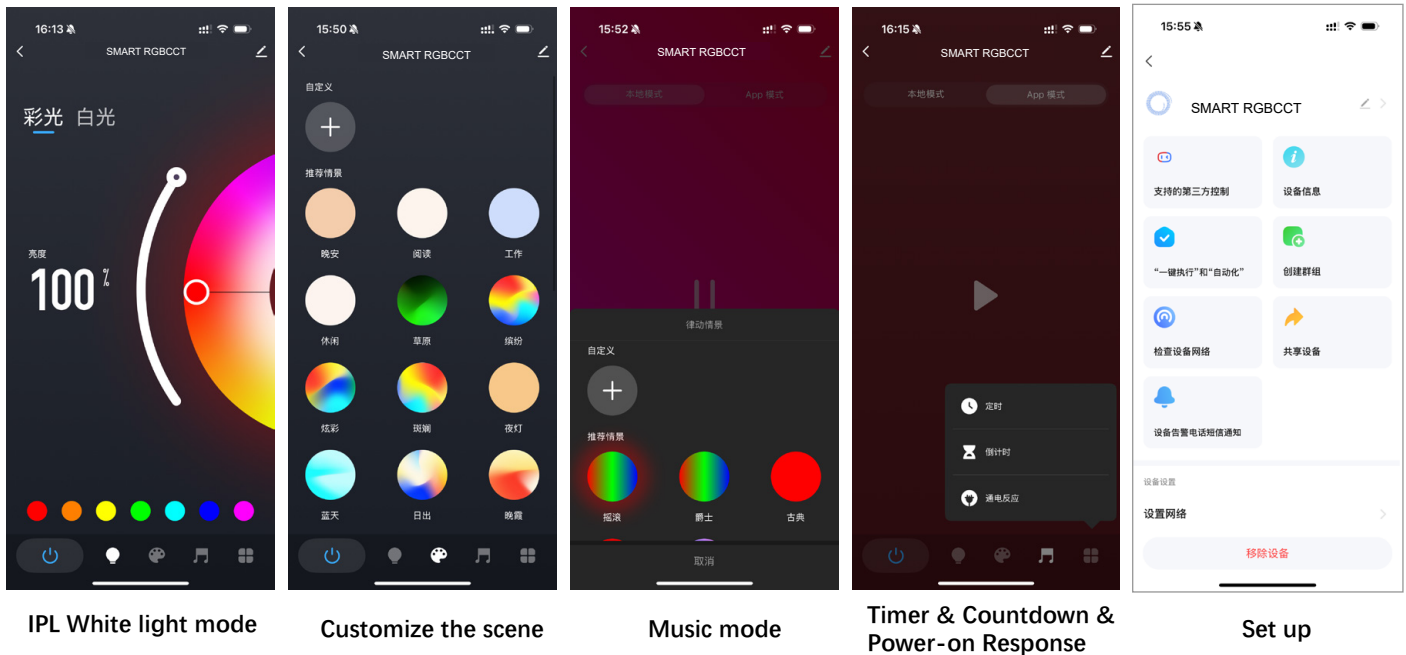

Adding

×

Please enter your wireless network information.

Please select the Wi-Fi device you want to work on and enter the password.

Color light White light mode: set the color and brightness of the light, one click to shortcut the color

Custom scenes: 32 scenario modes Custom customization can adjust the static, jumping, breathing, color brightness, and change speed of the scene, a total of 10 scenes can be customized

Music mode: local mode adjustable sensitivity, 5 recommended scenes, custom rhythm scenes, a total of 3 custom rhythm scenes can be added. The APP mode is not adjustable, and you need to turn on the mobile phone microphone to detect the music

Timer & Countdown & Power-on Response: Customize multiple times to perform on/off lights; Customize the countdown time to perform the on/off light action, and the light will automatically turn off when the countdown ends. The energizing reaction can set the state of the light after the energizing is applied

Settings: This interface can be bound with third-party language control, one-click execution and automation, group creation, device sharing and other functions

Safety Precautions

1. The remote control is a precision electronic product, please do not use it in a humid or high temperature environment for a long time. If not in use for a long time, remove the battery and store it in a cool, dry place.
2. Do not use this device in a large area of metal or in an environment with strong electromagnetic waves nearby, otherwise it will seriously affect the control distance
3. Please check whether the input voltage of the constant voltage power supply meets the requirements of the controller, and check whether the connection of the cathode and anode is correct.
4. The working voltage is DC 5~24V, if the voltage is higher than 24V, the controller will be damaged.
5. Non-professional users cannot directly disassemble the controller, otherwise it may cause fire and electric shock.
6. The working temperature (Ta) is -20~60°C; Do not use the appliance in direct sunlight, humidity, or other high-temperature areas.
7. When the equipment load reaches 15A, the wire diameter must be more than 1.5 square millimeters
8. When the device load exceeds 10A, the connection cable from the DC port to the LED strip must be shorter than 40cm.
9. Please install the device in a good heat dissipation area.
